Area	Experience
Technologies	Web Technology (HTML,CSS,JavaScript)
Framework/Library	Bootstrap, ReactJs
Database	MySQL
Languages & Packages	C/C++, Java, Python, HTML, CSS, JavaScript
Operating System	Windows
Versioning	Windows 10
Tools & IDEs	V.S code
Project Management Tool	Git, Github

KEY PROJECTS:

Bus Booking System

Technologies used: HTML, CSS, JavaScript

Project description.

- Get a user name and email - compare with API response (<https://jsonplaceholder.typicode.com/users>)
- if the email is available then redirect to screen 2 (screen 1 should hide and screen 2 should be displayed)
- Get passenger information and add more than 2 passengers male and female with click on add passenger button - When the user clicks on next, redirect to the seat booking screen/screen 3

Roles and Responsibilities:

- Front-end develop

Food App

Technologies used: HTML, CSS, JavaScript, Reactjs

Project description.

- In UI there is a cart logo and list of food items and In each food list there is a button of Increment/Decrement.
- After adding items check the list of food items and edit the list whatever you want to change before placed.

Roles and Responsibilities:

- Front-end develop

Form Validation

Technologies used: HTML, CSS, JavaScript

Project description.

- Create a sample form program that collects the first name, last name, email, user id, password and confirms password from the user. All the inputs are mandatory and email address entered should be in correct format. Also, the values entered in the password and confirm password textboxes should be the same. After validating using JavaScript, In output display proper error messages in red color just next to the textbox where there is an error.
- Default submit button should be disabled if there is no any error in form then submit button should be enable

Roles and Responsibilities:

- Front-end develop.

Task List

Technologies used: HTML, CSS, JavaScript, Reactjs

Project description.

- Show the list of tasks (in-progress task will be first and completed task will be end of the list).
- Add a new task and added in the top of the list (default will be in In-progress) and. Mark any task as completed give the checkbox or button (completed task should be background color green).
- Edit the existing task.
- Delete the task and remove it from the list.

Roles and Responsibilities:

- Front-end develop

EDUCATION:

Bachelor of Technology, Cochin University of Science and Technology, Kochi, Kerala 2017-2021

- Computer science and Engineering
- CGPA – 8.04

Class XII, Shri Vishnu Pragash High School, Madhuban, Motihari, Bihar 2016-2017

- Bihar School Examination Board
- Percentage - 62

Class X, Jeevan Jyoti Vidyalaya, Dera chowk, Muzaffarpur, Bihar 2013-2014

- Central Board of Secondary Education

- Percentage – 87
